

# User manual

Concentrated, broad-spectrum floor, surface, water and air hygiene disinfectant used for professional consumption.

\* Not included in any class that is harmful to the environment and human health.

## Ingredients:

Polymer Quaternary Ammonium Chloride Compounds (polyQACs) and Aquakristal-B formula

## Microbiological effect:

It has full effect against all bacteria, spores and biofilms, molds and fungi, especially Legionella, E. faecium, Staphylococcus aureus, Pseudomonas aeruginosa, Escherichia coli, pneumophila.

## Areas of use:

Ensures hygiene on all hard surfaces. It is suitable for floors, toilet bowls, washbasins, shower cabins and sanitary junctions.

Used for disinfection after cleaning equipment and surfaces in bathrooms, kitchens and food production areas.

Eliminates unpleasant odors.

It can be safely used in schools, hospitals, clinics and polyclinics, hospital rooms, factories, sports facilities, common living areas, dormitories, swimming pools, industrial areas and nurseries.

Can be used on walls, floors, work areas and all hard surfaces.

Suitable for all types of surfaces, including aluminum surfaces.

## How to use:

Can be used by brushing, wiping, dipping, spraying methods and ULV devices. It provides permanent and effective cleaning with its special formula. It is highly effective even in short-term contact and helps to effectively clean by penetrating the smallest gaps. It washes off easily without leaving any residue.

Carefully close the lid of the package after use.

Aquakristal-b surface disinfectant is prepared in the form of a 0.1-1% (1/1000-1/100) solution depending on the quality of the water used during rinsing and the area of use.

# User manual

## Shelf life of packaging:

Store upright in the original packaging in a cool, dry place away from sunlight. Use within 3 months of opening and 24 months from date of manufacture.

## Chemical, physical and toxicological information:

Density: 1.145 -1.155 g / ml, pH value: 4 - 5,

Appearance: Clear liquid

Color: blue green. Toxicity : Ld 50 Oral Sic, an : 2000 mg/kg
